 Ano em que o domínio do site começou a ser utilizado; Qual ano, o domínio teve mais acesso; Qual mês costuma ter mais acessos no site, etc.

WayBack Machine: reddit.com

O Reddit.com antes era hospedado em outro domínio, o nome era BuyDomains.com que, como o nome já sugere, era um site de vendas de domínios para uma organização, isso lá em julho de 2002. Em Agosto de 2005 passou a ser o domínio que é hoje Reddit.com um site de notícias. Em Outubro de 2007 foi a primeira vez que foi acessado todos os dias desse mês. Em Janeiro de 2012 foi a primeira vez que o site teve mais de 1000 mil requisições em um único dia. Em Julho de 2021 bateu o recorde de acessos em um único dia: 134,965 requisições, também foi o ano que teve mais acessos.
